Professional Summary

AI Portfolio Manager (Lead) specializing in AI strategy, digital transformation, and enterprise program delivery. Promoted from Senior Program Manager within months for strong leadership and impact. Currently pursuing an MBA at UUM, supported by certifications in Lean Six Sigma Black Belt, Azure AI, Azure Administrator, Google PM, and IBM Data Analytics. Known for combining technical literacy with strategic thinking to drive automation, operational excellence, and innovation at scale.

Professional Experience

AVENTRA GROUP SDN BHD

AI PORTFOLIO MANAGER - LEAD | SEPT 2025 - PRESENT

- Oversee AI Portfolio Programme Management by governing project intake, prioritization, road mapping, and resource planning, establishing a centralized AI request funnel, developing a scoring matrix to assess ROI and strategic fit, creating portfolio roadmaps in Power BI for visibility, and identifying overlapping initiatives to drive consolidation and alignment.
- Appointed as Innovation Portfolio Manager under the Product Innovation Steering Committee, integrating Lean Six Sigma methodologies with Power Platform automation to strengthen enterprise governance and drive business improvement, supported by scorecards and insights for AI initiative governance.
- Designed & developed an automated user feedback system with a two-level approval process using SharePoint and Power Automate, integrated with Outlook and Teams, improving workflow efficiency and helping identify and resolve business issues faster.
- Collaborated with data analysts to build Power BI dashboards in Microsoft Fabric, integrating forecasting and anomaly detection features to enhance automated reporting and support data-driven decisions.
- Established AI lifecycle governance and compliance standards, introducing bias/privacy gates, standardized success metrics, and stage-gate templates from POC to production, integrated Lean Six Sigma tools (SIPOC, FMEA) to enhance reliability, consistency, and audit readiness across AI initiatives.
- Developed AI portfolio reporting and communication frameworks, including a Power BI dashboard with key KPIs, monthly portfolio health reports for senior leadership, and stakeholder alignment sessions, translated complex AI performance metrics into clear business insights to support data-driven decision-making.

SENIOR PROGRAM MANAGER | APRIL 2025 - SEPT 2025

- Partnered with AI engineers to build an internal AI-powered automation solution, overseeing development, providing business insights, and translating goals into technical requirements, reducing manual operations by 80% and boosting productivity across teams.
- Served as both Product Owner and Program Manager for internal digital transformation projects, guiding end-to-end delivery through a lean SDLC framework and overseeing cross-functional teams including UI/UX, full-stack development, QA engineering, security, and infrastructure.
- Appointed as SharePoint Owner to lead governance and automation efforts, ensuring effective document control, compliance, and optimized SharePoint usage across departments.
- Led the design and development of Power BI dashboards that delivered actionable insights to internal stakeholders, enhancing business intelligence, performance monitoring, and early risk identification.
- Proposed an AI-integrated resource management solution to centralize knowledge, improve transparency, and ensure optimal resource allocation, reducing redundancy and enhancing operational efficiency.
- Appointed as Global Azure DevOps Administrator, overseeing all project governance, user access, and

repository structure across all departments

- Standardized project governance and delivery models using Azure DevOps as a centralized system for cross-functional collaboration, improving compliance, user adoption, and providing a single source of truth for project updates, requirements, and status.
- Architected integrations across Microsoft 365 ecosystem tools such as SharePoint, Power BI, Power Automate, Excel, and Teams to unify data sources, automate workflows, and enhance real-time reporting for informed decision-making.

AGMO STUDIO SDN BHD (PMO)

PROJECT MANAGER | JUNE 2023 – MARCH 2025

- Led and successfully managed 8 projects, ensuring all were completed within budget and on schedule while exceeding stakeholder expectations.
- Led cross-functional teams consisting of 24 members in the execution of projects, ensuring alignment with Agile principles.
- Coordinate product as a Scrum Master by applying Agile practices like sprint planning, daily stand-ups, scrum reviews and retrospective meetings.
- Implemented risk management strategies to identify, assess, and mitigate potential project risks and ensuring minimal disruption to project timeline using risk matrix, SWOT Analysis, Risk Breakdown Structure (RBS) and proper documentation.
- Experienced with Agile tools like Azure DevOps, ServiceNow, Jira and Redmine to track progress and identify areas for optimization.
- Fostered open communication and collaboration among team members, stakeholders, and clients to deliver value-driven results.
- Implemented artificial intelligence and machine learning functionalities to support investment advisors in providing tailored strategies and recommendations.
- Presented working demos to government stakeholders, resulting in project awards totaling over RM3,000,000.
- Achieved a 40% increase in client acquisition through project enhancements.
- Implemented chatbots, talkbots, and developed a portal resembling a SaaS platform for B2B clients.
- Managed delivery of multiple complex software development projects by optimizing resource allocation, ensuring efficient use of manpower, time, and budget

SILTERRA MALAYSIA SDN BHD

EQUIPMENT & PROCESS ENGINEER | MAY 2022 – MAY 2023

- Utilized Lean Six Sigma principles to analyze data and develop enhanced processes.
- Led a team of technicians to ensure seamless operations and equipment maintenance.
- Collaborated closely with process engineers to develop equipment specifications for next-generation products.
- Assisted in conducting time and efficiency studies to identify opportunities for improvement.
- Implemented process improvements resulting in increased efficiency and reduced operational costs

TIALOC MALAYSIA SDN BHD

PROJECT ENGINEER | NOV 2021 – APRIL 2022

- Proficient in Waterfall methodologies, ensuring planning and step-by-step project execution.
- Held the pivotal role of process owner for the installation and coordination of critical systems, including HVAC, AHU, PCW, PCH, piping, chillers, cooling towers, and drainage systems.
- As Lead Project Engineer, orchestrated the installation of 20+ vendor systems for the facility project launch, achieving 100% compliance within specified timeline commitments.
- Demonstrated strong communication skills by effectively connecting clients, engineers, and stakeholders spanning three countries to ensure the project's overall success.

ASPEN GLOVE SDN BHD

PROJECT ENGINEER | JAN 2021 – SEPT 2021

- Project Manager involved in setting up main machinery systems and achieved to meet project goals.
- Operation and maintenance Project Manager of chlorine scrubber in compliance with the regulations of the Department of Environment.
- Project manager for SAP Plant Maintenance (SAP S/4HANA)
 - Preventive, corrective, and breakdown maintenance.
 - Carry out validation and training complying with ISO 13485, ISO 14001, ISO 45001 and HIRARC.
- Successfully executed project to reduce chlorine usage in scrubber system by up to 5%.

DUTCH LADY MILK INDUSTRIES BHD

PROJECT MANAGEMENT INTERN | JAN 2019 – AUG 2019

PROJECT: UHT 1L Multishrink Multipacker Machine & Handle Applicator Machine – Managed installation and troubleshooting of machines, performed UAT, coordinate project timelines while having close communication with vendors and contractors

Education

Degree: BACHELOR OF CHEMICAL ENGINEERING WITH HONOURS | MAY 2016 – JUNE 2020 | UNIVERSITI TEKNOLOGI PETRONAS

Masters: MASTERS OF BUSINESS ADMINISTRATION (MBA) | SEPT 2025 - JAN 2027 | UNIVERSITI UTARA MALAYSIA (OYAGSB), CHARTERED MANAGEMENT INSTITUTE (CMI)

- Focused on Strategic Management and Process Optimization.
- Conducted a real-world case study on Lean SDLC implementation at Aventra Group, aligning academic research with enterprise governance transformation.

Licenses and Certificates

- Lean Six Sigma Black Belt (48528525783471)
- Microsoft Certified: Azure AI Fundamentals (15FBB59471D5B677)
- Google Project Management (KY5AUUF2S9BQ)
- IBM Data Analyst Professional Certification (RRPFL5AQ3CVX)
- Executive Diploma in Mechanical CADD (AutoCAD 2d & SOLIDWORKS) (IBE211208856)
- Graduate Engineer Board of Engineers Malaysia (G1184046A)

Tools

- Azure DevOps
- Jira
- Python
- SQL
- Microsoft Suites – (Microsoft 365, Power Automate, PowerApps, Fabric, PowerBi)
- ServiceNow
