PROFESSIONAL SUMMARY

Lead Product & AI Ops professional with 6+ years of progressive experience driving enterprise AI governance, digital transformation, product delivery governance, and cross-functional programme execution across technology-intensive environments. Recognised as Best Young Talent 2025 (Employee of the Year) and rapidly progressed from Senior Program Manager to Lead-level scope within 9 months. Combines strategic portfolio oversight, AI lifecycle governance, HR technology rollout, and structured change management to deliver measurable business value. Brings hands-on proficiency with Power Platform, Azure DevOps, and Microsoft Fabric alongside strong Lean Six Sigma, Agile, and PMO methodologies. Currently pursuing a part-time MBA at Universiti Utara Malaysia (UUM/OYAGSB | CMI) with a 4.00 GPA. Seeking a managerial, transformation, or governance role in an MNC, Big 4, GLC, or consulting environment.

PROFESSIONAL EXPERIENCE

AVENTRA GROUP SDN BHD

Lead Product & AI Ops | Jan 2026 – Present

- Lead enterprise-wide Portfolio & Program Management governance across 15+ products covering AI initiatives, product delivery improvement, and digital transformation programmes; oversee intake, prioritisation, roadmapping, dependency management, and resource alignment across a cross-functional portfolio of 3 core products.
- Spearhead company-wide 5X process delivery cycle improvement initiatives across Product, UI/UX, Development, QA, IT Security, and HR functions; conduct current-state assessments, gap analyses, and future-state design — reducing delivery cycle times by up to 5x and driving measurable cross-team alignment.
- Developed 6 ISO 27001-aligned product delivery governance SOPs spanning ideation, requirement definition, UX flow design, functional prototyping, UAT, UI finalisation, and development handover; defined ownership, exit criteria, approval controls, and evidence retention to support compliance and audit readiness.
- Lead AG ONE Series internal pilot rollout across AG ONE Work (HRIS/workforce management), AG ONE Learn (LMS/learning management), and AG ONE Safe (safety compliance) targeting 200–500 employees; coordinate Product Managers, Tech Lead, QA, IT Security, HR, and business stakeholders through MVP readiness, data migration, third-party integration, role-based access configuration, UAT, and phased employee lifecycle onboarding.
- Established structured Change Request and Product Improvement Register governance across 15+ products; reduced process turnaround time from 118 hours to 5.3 hours — a 95% reduction — by standardising impact assessment, approval workflows, and executive visibility of scope and timeline implications.
- Built centralised AI portfolio governance framework governing 6–10 active AI initiatives; established ROI-based scoring matrix, AI intake funnel, staged roadmap, and risk register to align investments with strategic objectives and eliminate overlapping spend across business units.
- Established AI lifecycle governance model incorporating bias/privacy control gates, standardised KPIs, and stage-gate review templates from POC to production; applied SIPOC and FMEA to improve compliance, reliability, and audit readiness across AI deployments.
- Partnered with data analysts to design 4–8 Power BI dashboards within Microsoft Fabric with integrated forecasting and anomaly detection; served mixed audiences from operations teams to C-suite, strengthening executive reporting, portfolio visibility, and data-driven decision-making.
- Appointed Innovation Portfolio Manager under the Product Innovation Steering Committee; integrated Lean Six Sigma methodologies with Power Platform automation to enhance governance transparency, streamline initiative evaluation, and improve operational efficiency.

Senior Program Manager | Apr 2025 – Dec 2025

- Served as Product Owner and Program Manager for internal digital transformation projects; guided end-to-end delivery via a lean SDLC framework, managing cross-functional teams across UI/UX, full-stack development, QA, IT Security, and infrastructure.

- Partnered with AI engineers to deliver an internal AI-powered automation solution; translated business requirements into technical specifications, reducing manual operations by 80% and improving team productivity across departments.
- Appointed Global Azure DevOps Administrator; standardised project governance, repository structure, and user access controls across all departments, providing a single source of truth for project status, requirements, and compliance tracking.
- Appointed SharePoint Owner; led governance, document control, and workflow automation across the organisation, improving compliance and cross-departmental collaboration within the Microsoft 365 ecosystem.
- Architected Microsoft 365 ecosystem integrations across SharePoint, Power BI, Power Automate, Teams, and Excel spanning 10 departments and 3 entities; unified data sources, eliminated offline and fragmented storage, centralised reporting into a single cloud platform, and automated finance workflows — significantly reducing manual effort and improving real-time decision-making across the organisation.
- Proposed and scoped an AI-integrated internal Resource Management platform to centralise knowledge, optimise resource allocation, and reduce operational redundancy; advanced to build phase under current portfolio governance.

AGMO STUDIO SDN BHD (PMO)

Project Manager | Jun 2023 – Mar 2025

- Managed a portfolio of 8 software development projects, delivering all within budget and schedule while exceeding stakeholder expectations across public sector and B2B client engagements.
- Led cross-functional delivery teams of up to 24 members; applied Agile/Scrum practices including sprint planning, daily stand-ups, sprint reviews, and retrospectives to drive iterative delivery and stakeholder alignment.
- Led delivery of an AI-driven financial literacy advisory platform for a fintech client; presented to the Securities Commission of Malaysia, securing a government-backed sponsorship award of over RM 3,000,000 and contributing to a 40% increase in client acquisition.
- Maintained a 100% client satisfaction rating across all project engagements; received consistently positive feedback directly from clients — including post-engagement — recognised formally during performance reviews as a top-rated Project Manager.
- Implemented AI and machine learning functionalities to support investment advisors with tailored strategy recommendations; delivered chatbot, talkbot, and SaaS-style B2B portal solutions.
- Applied structured risk management frameworks including risk matrix, SWOT analysis, and Risk Breakdown Structure (RBS) across project lifecycles to minimise timeline disruption and maintain delivery confidence.
- Administered Azure DevOps, Jira, ServiceNow, and Redmine for project tracking, issue management, and delivery governance across concurrent engagements.

SILTERRA MALAYSIA SDN BHD

Equipment & Process Engineer | May 2022 – May 2023

- Applied Lean Six Sigma principles to analyse production data, develop enhanced processes, and reduce operational costs within a semiconductor manufacturing environment.
- Collaborated with process engineers to define equipment specifications for next-generation product lines; led technician teams to maintain seamless equipment operations and uptime.

TIALOC MALAYSIA SDN BHD

Project Engineer | Nov 2021 – Apr 2022

- Orchestrated installation of 20+ vendor systems for a greenfield facility project, achieving 100% compliance within committed timelines.
- Served as Process Owner for HVAC, AHU, PCW, PCH, piping, chiller, cooling tower, and drainage systems; managed cross-country stakeholder coordination across three countries.

ASPEN GLOVE SDN BHD

Project Engineer | Jan 2021 – Sep 2021

- Led SAP S/4HANA Plant Maintenance implementation and managed compliance validation against ISO 13485, ISO 14001, ISO 45001, and HIRARC.
- Executed process improvement project reducing chlorine consumption in scrubber system by 5%, aligned with Department of Environment compliance requirements.

DUTCH LADY MILK INDUSTRIES BHD

Project Management Intern | Jan 2019 – Aug 2019

- Managed installation, UAT execution, and commissioning of UHT 1L Multishrink Multipacker and Handle Applicator machines; coordinated project timelines and vendor communication.

EDUCATION

Master of Business Administration (MBA) | Universiti Utara Malaysia (UUM/OYAGSB) | Chartered Management Institute (CMI) | Sep 2025 – Jan 2027

- GPA: 4.00 | Focus: Strategic Management and Process Optimisation
- Conducted enterprise case study on Lean SDLC implementation at Aventura Group, aligning academic research with operational governance transformation.

Bachelor of Chemical Engineering with Honours | Universiti Teknologi PETRONAS | May 2016 – Jun 2020

SKILLS

Core Competencies

Portfolio & Program Management • PMO Setup & Governance • AI Portfolio Governance • AI Lifecycle Governance • Digital Transformation • Product Delivery Governance • HR Technology (HRIS/LMS) Rollout • Employee Lifecycle Management • Operating Model Design • Current-State Assessment & Future-State Design • Gap Analysis • Transformation Roadmap • Change Request Management • Product Improvement Register • Stakeholder Management • Stakeholder Engagement • Executive Reporting • ISO 27001 Readiness • Risk Register & Compliance • Data Migration • Third-Party Integration • UAT Management • Internal Pilot Rollout

Tools & Platforms

Azure DevOps • Microsoft Fabric • Power BI • Power Automate • PowerApps • SharePoint • Microsoft 365 • Jira • ServiceNow • Redmine • Python • SQL

Methods & Frameworks

Agile / Scrum • Lean Six Sigma (Black Belt) • SIPOC • FMEA • Lean SDLC • Waterfall • Risk Breakdown Structure • Stage-Gate Governance • SWOT Analysis

CERTIFICATIONS

- Lean Six Sigma Black Belt
- Microsoft Certified: Azure AI Fundamentals
- Google Project Management Certificate
- IBM Data Analyst Professional Certification
- Executive Diploma in Mechanical CADD (AutoCAD 2D & SOLIDWORKS)
- Graduate Engineer – Board of Engineers Malaysia

AWARDS & RECOGNITION

- Best Young Talent 2025 – Employee of the Year, Aventura Group Sdn Bhd
- Steering Committee Member – Product Innovation, Aventura Group Sdn Bhd
